## FINDING AN ABA PROVIDER

ABA Services are Hard to Find. We know how hard it is to find ABA services, long wait-lists, not the type of services you want, or maybe the BCBA you work with is not a great match, whatever the challenge – keep searching for the right provider. We want you to get the ABA services you need and will work for your child and family, and the first thing is to know where to go. There are many resources about how to choose an ABA provider (google: “how to choose an ABA provider and the Indiana University has a well-informed list here: <https://www.iidc.indiana.edu/pages/tips-for-choosing-a-provider-for-applied-behavior-analysis-aba>).

We hear you and we know how difficult this process can be. We’re here to provide you with support and training throughout the process. And while we are not able to serve everyone who needs ABA services, we want you to have ABA services. We are providing a brief overview of the companies who may be servicing the Hernando County, FL area in addition to Trinity ABA, LLC Center for Behavior Training (the only current provider based in Hernando County, FL).

Additionally, you can look-up qualified providers in your area. You can search by your city or zip code here on the Behavior Analysis Certification Board (BACB.com) website and look for individual providers (BCBAs, BCaBAs, and RBTs) in your area [click here to search for BCBAs in your area](#).

The following page provides a list of providers we are aware of and how to contact them and their websites.
